Continuation of Substance of Interview including description of the general nature of what was discussed: Claims 19 and 22 were cancelled, but were not incorporated into independent claim 18. It was concluded that the previously presented amendments in response to the first office action provided the same content and incorporating the content of claims 19 and 22 would have been redundant..

Art Unit: 2611

DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The present invention 1. of a method and apparatus for receiving a packet comprising the steps of generating a corresponding plurality of parameters by examining a respective signal portion received on each of a plurality of antennas, selecting one of said plurality of antennas based on said corresponding plurality of parameters, and receiving a payload portion of said packet on said one of said plurality of antennas wherein each of said parameters has a corresponding value for each of a plurality of sub-portions of the respective signal portion received on each of said plurality of antennas. The parameters include correlation and strength values of the signal and the parameters are generated by determining a gain factor. The closest prior art, Feng et al. (US 7,099,380) shows a similar method and system which also receives a packet on a plurality of antennas, generating a plurality of parameters of the detected signal (SNR and SQ) and selects an antenna based on the SNR and SQ parameters (Figures 7, 8 and 9). However, Feng et al. fails to disclose the specific rules for choosing an antenna based on thresholds applied to the difference between the gain factors of each antenna and selecting antennas differently if the difference between the gain factors is zero, small, or large, and also based on correlation values and the value $\mu\infty$. These distinct features have been added to independent claims 1, 8 and 18. Therefore, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
